BUSINESS-TO-BUSINESS ISSUE

Focusing on business-to-business providers & how supply chains impact the area economy

Running a business these days often means relying on a corps of support services and sourcing materials provided by an interconnected maze of suppliers. This *Mountain Xpress* special issue will take a deep dive into how B2B businesses contribute to our local economy and the challenges they face. We'll also take a look at how the **Go Local** network fits in and list its B2B members.
